Over View

Founded in 2009, SMART Cell is a dynamic company that specializes in Manpower outsourcing & telecom infrastructure, including Wireless GSM/3G/4G and 5G, Microwave Links, Power Systems, turnkey Civil works, and Fiber Optics, as well as core networks and data centers. We are dedicated to delivering outstanding services across these areas, providing customized solutions to meet our clients' evolving needs. Our expertise encompasses the design, installation, and maintenance of advanced communication networks, power systems, and civil infrastructure. We also excel in the installation, testing, and maintenance of fiber optic networks, facilitating high-speed data transmission and connectivity. With over a decade of excellence, SMART Cell is committed to ensuring client satisfaction through a strong focus on quality, reliability, and customer-centered solutions.

Mission

Our vision at SMART Cell is to become a global leader in cutting-edge telecom infrastructure, power systems, civil works, and fiber optics solutions. We're committed to driving the future of communication and connectivity through technology, innovation, and sustainability. Our goal is to create a world with seamless communication, accessible power, sustainable infrastructure, and fast, widespread data transmission. Through our dedication to quality, adaptability, and customer satisfaction, we aim to make a lasting, positive impact on industries and communities.

Vision

At SMART Cell, our mission is to revolutionize global connectivity by combining our telecom infrastructure, power systems, civil works, and fiber optics expertise. We're committed to providing innovative, sustainable solutions for businesses and communities, offering seamless connectivity, reliable power, robust infrastructure, and efficient data transmission. With a decade of experience, we aim to surpass client expectations, build lasting partnerships, and advance society. Our customer-centric approach prioritizes integrity, professionalism, and operational

Safety and Well-being

Ensuring a safe and healthy work environment

Customer Focus

Putting our clients at the center of all we do

Professional Growth

Nurturing our team's skills and knowledge

Innovation

Embracing creativity and adaptability

Teamwork

Collaborating for collective success.

SMART Cell OHS Policy

SMART Cell is dedicated to creating a safe and healthy work environment by adhering to international standards like ISO 9001:2015, ISO 45001:2018, and local labor laws, while also meeting sustainability benchmarks such as the Eco Vadis evaluation. We ensure all employees receive thorough OHS training from qualified third parties and continuous safety orientations to maintain high competence and adherence to safety protocols. Our workforce is actively involved in identifying, reporting, and addressing safety concerns through dedicated communication channels and elected safety committees.

In addition, employees are empowered to stop operations when risks are identified, supported by the "Penalty and Rewards rules" to ensure incident prevention and performance control. SMART Cell aims for "zero incidents" and "100% compliance" by setting measurable safety goals and promoting continuous improvement. We are committed to exceeding all legal health and safety requirements for the benefit of both our employees and the community.

SMART Cell QUALITY Policy

SMART Cell is a telecom contracting company specializing in civil, power, and telecom services, offering expert installation and maintenance solutions, as well as manpower outsourcing. At SMART Cell, our commitment to excellence is unwavering. We prioritize customer satisfaction above all else, tailoring our telecommunications services to exceed their expectations. Through a culture of continuous improvement, we strive to innovate and enhance our services and processes continually. Compliance with country and customer regulations and standards is non-negotiable, ensuring the reliability and integrity of our operations.

We empower our employees to contribute their best, recognizing them as our greatest asset. Collaboration with stakeholders and communities is integral to our approach, fostering mutually beneficial relationships. Environmental responsibility is at the core of our operations, with sustainable practices integrated into every aspect. Data security and privacy are paramount, with stringent measures in place to safeguard sensitive information.

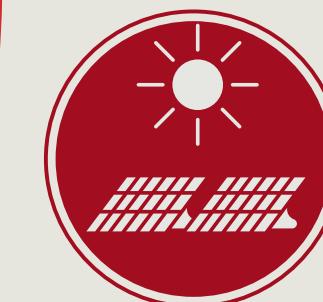

At SMART Cell, our Quality Policy drives us forward, ensuring that we remain a trusted leader in telecommunications services, known for our unwavering commitment to excellence and customer satisfaction.

OUR SERVICES

SERVICES

Manpower Outsourcing: SMART Cell offers efficient and reliable manpower outsourcing solutions. We provide skilled and trained personnel across various disciplines, meeting specific project requirements. Our focus is on delivering qualified professionals to support your projects and optimize operational efficiency.

Telecom Wireless Installation and MW Installation: We specialize in seamless installation of telecom wireless systems and microwave (MW) technology. Our expert team ensures precise and timely deployment, optimizing network connectivity and performance. SMART Cell's proficiency in telecom installations ensures enhanced communication capabilities and improved network coverage.

Power System Installation, UPS, and Solar System: SMART Cell excels in the installation of robust power systems, including Uninterruptible Power Supplies (UPS) and solar solutions. We design and implement power infrastructure that guarantees uninterrupted electricity supply, incorporating sustainable solar technology to reduce environmental impact and enhance energy efficiency.

Civil Work Installation, Concrete Foundation, Towers, and Mast: Our civil work installation services encompass concrete foundation construction for telecom towers and masts. SMART Cell prioritizes structural integrity and safety, delivering top-notch concrete foundations that provide stability and support to telecom infrastructure. We specialize in constructing reliable foundations for towers and masts, ensuring longevity and durability.

SERVICES

Fiber Optics Services (FTTH): SMART Cell offers comprehensive fiber optics services, covering installation, testing, and maintenance. We facilitate high-speed data transmission by deploying and managing efficient fiber optic networks. Our expertise ensures seamless connectivity and reliable data transmission, meeting the growing demands of modern communication systems

Data Center Solutions: SMART Cell specializes in designing and implementing data center solutions to cater to the evolving needs of businesses. We ensure optimal utilization of space, energy efficiency, and secure data storage. Our solutions guarantee reliable and scalable data infrastructure, meeting the demands of today's data-driven landscape.

Core Network Development: SMART Cell excels in the development and enhancement of core networks. We design and implement resilient core network solutions that form the backbone of reliable communication systems. Our focus is on delivering high performance, low-latency networks to support critical operations and ensure seamless connectivity for your organization.

Our Clients

Our goal is to exceed the quality expectations of our customers. This commitment starts with top management and extends through the entire organization. It is achieved through innovation, technical excellence and continuous improvement.

ACHIEVEMENT!

CORAL BRIDGE SUBMARINE FIBER CABLE

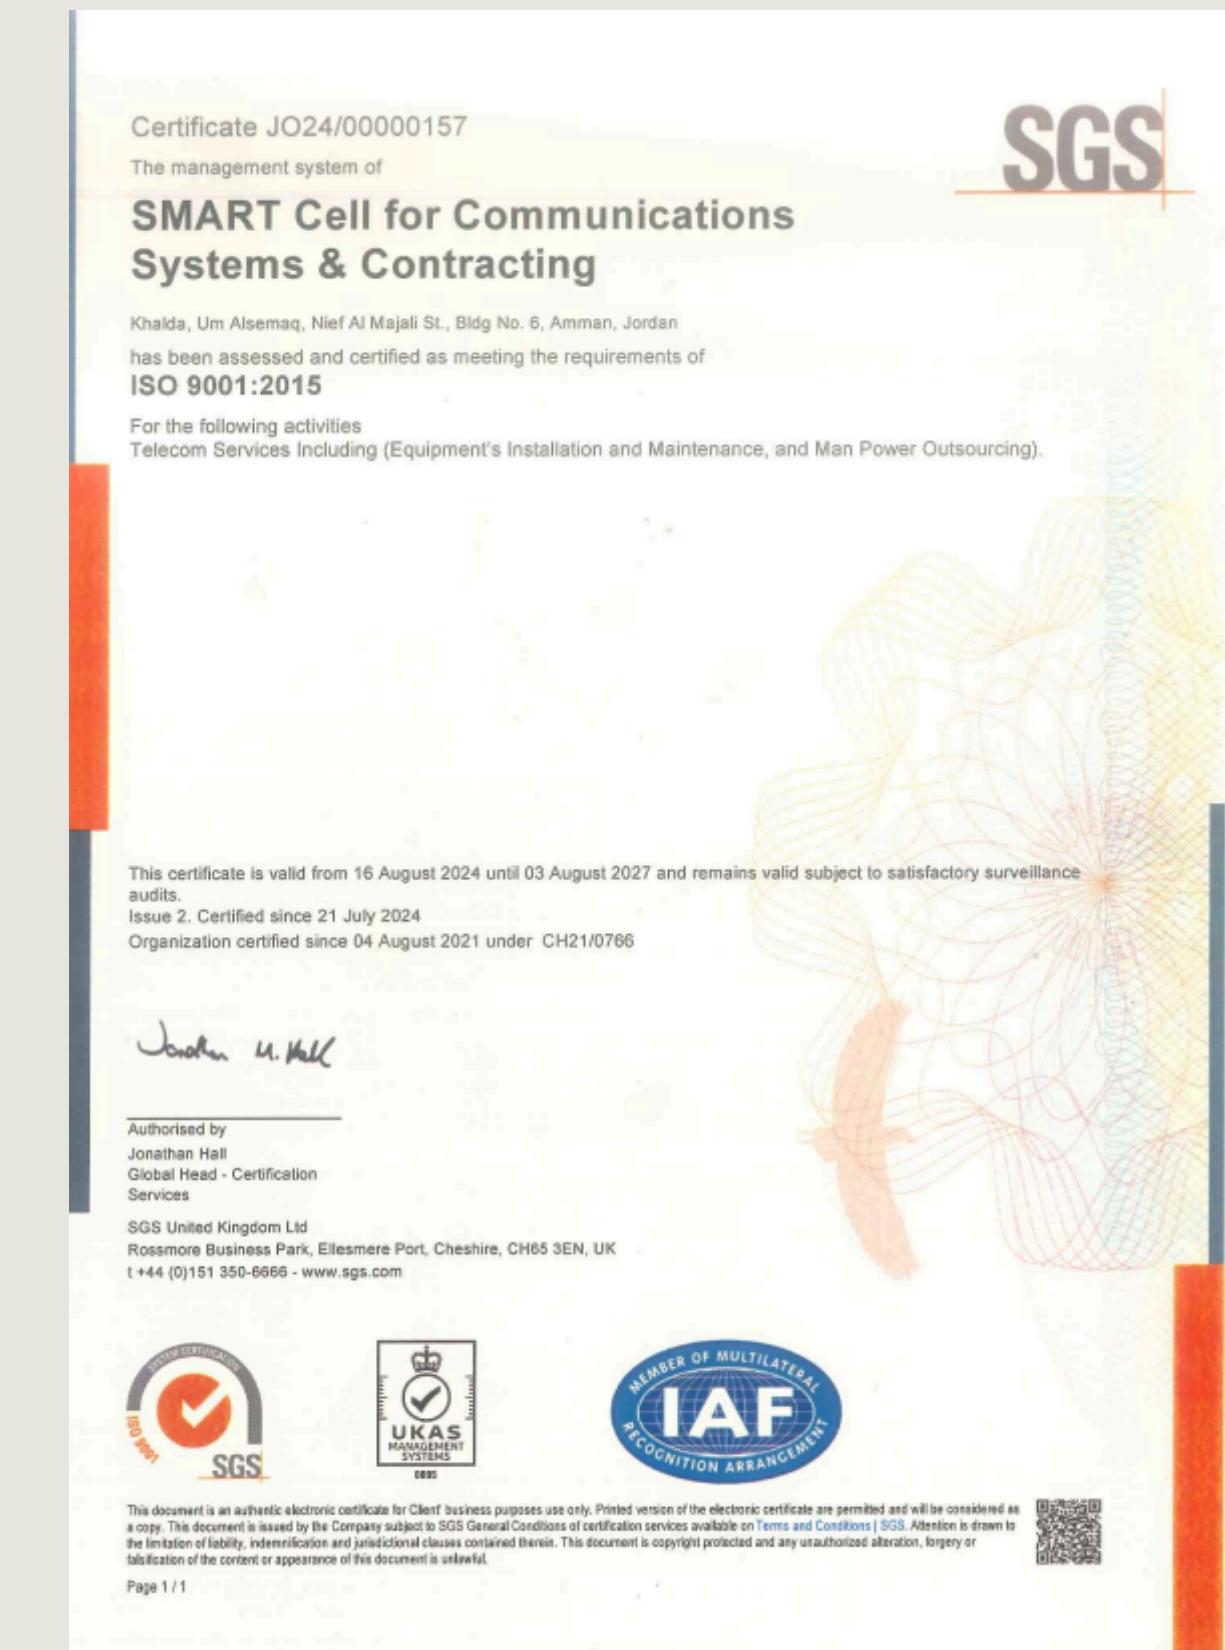

SMART Cell has played a key role in the successful landing of the **“Coral Bridge”** submarine cable in Aqaba – a vital link connecting Egypt and Jordan.

Our team was responsible for preparing the infrastructure from the beach to the digital hub in Aqaba and for pulling the submarine cable from the ship offshore to the landing point on the beach.

Certifications

SMART CELL places great emphasis on the quality, reliability and safety of the services it offers. It does business in full compliance with the international standards on information quality and security, and has been certified under ISO 45001:2018 & ISO 9001:2015

AWARDS
